

LOCHVAAL EMFULENI WELFARE, FAMILY CARE, SHELTER, DEVELOPMENT & TRAINING CENTER

Mission

To render welfare, welfare related and other services in respect of family care, community development, child care and education and care of the aged in communities to all those who may benefit thereby

Vision

To provide Christian norms and a value system to best render a service delivery to beneficiaries in need. The needs of children and families are the most important aspect of this organisation, because it also functions as a Welfare Family Care Organisation. Therefore we are intense involved with the uplifting needs and interest in our community. The needs have sometimes an overwhelming magnitude, but we believe we can make a positive difference in people's life by opposing and relieving hunger and poverty.
